

Labour Market Report

Centre for Skilled and Internationally Trained Professionals

Centre Update

The Bredin Institute has instituted a number of workshops and study groups to assist our internationally educated medical service professionals. These events are an opportunity for individuals to share their experiences, acquire needed information/guidance/skills and to be mutually supportive in their quest for Canadian licensure.

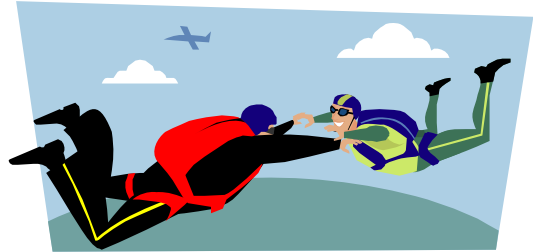

As spring gets underway in Edmonton, client attendance has increased at the Centre for Skilled and Internationally Trained Professionals. As a result, our employment preparation workshops are well-attended and clients are able to share information about job search and living in Edmonton. Our Case Manager, Program Liaison Officers and Facilitator look forward to helping clients in their job search.

Those interested in becoming a client should contact the Centre to book an appointment with our assessment officer today!
