

Labour Market Report

Centre for Skilled and Internationally Trained Professionals

Centre Update

February was an excellent month for the Centre's job seekers, with ten clients finding work in their field. With areas like medicine, health sciences, agriculture, architecture, geology and science represented, this should bolster the spirits of those still unemployed.

Echo, the Employment Developer who works with Pharmacists, among other professions, has also been organizing seminars that would be useful to those currently preparing for the Eligibility Exam. Upcoming topics include pharmacokinetics, immunology and biochemistry. Please speak to Echo if you are interested in taking part in these seminars.

We would like to take this opportunity to wish Elma Bedeau all the best as she moves on to new challenges, but also to welcome Eslyn Boland to CSITP as our new Assessment Officer. She brings with her many years of experience and will be a dynamic addition to our team.
